What is the US Constitution?

- The supreme law of the United States.
- It is the foundation and source of the legal authority underlying the existence of the United States of America and the Federal Government of the United States.
- It provides the framework for the organization of the United States Government.

What are the basic principals of the Constitution?

- Popular Sovereignty
 - Government power resides in the people
- Limited government
 - Government is not all powerful, can only do what the people let it.
- Separation of Powers
 - Helps prevent one branch from becoming too powerful
 - Checks and Balances
- Federalism
 - Division of power among national and state governments

What are the Checks and Balances?

Who Wrote It?

- James Madison is considered “the father of the Constitution.”
- His important contributions:
 - The Virginia Plan
 - Separation of Powers
 - Bill of Rights

Why was it written?

- After the Revolutionary War, the Articles of Confederation set up the structure of the US Government.
- The federal government was extremely weak and this created many problems such as:
 1. No separation of powers – only unicameral legislature.
 2. Weak central government – states had most power.
 3. Congress did not have the power to tax – this means they could not get their finances in order.

Why was it written?

- More problems with the *Articles of Confederation*:
 4. In order to change the Articles, all thirteen states had to approve of the changes. This made it essentially impossible to make any changes.
 5. For any major laws to pass they had to be approved by 9 or the 13 states which was difficult.
 6. Congress did not have the power to regulate commerce which caused competition between states. It also caused diplomatic issues when states refused to pay for goods they received from other nations.

Why was it written?

- Shays' Rebellion:
 - An uprising of farmers in Massachusetts – led by Daniel Shays.
 - Helped convince leaders that a strong central government was needed.

"A scene at Springfield, during Shay's Rebellion, when the mob attempted to prevent the holding of the Courts of Justice."—E. Benjamin Andrews, 1895

When was it written?

- May 25th to September 17th, 1787
- Philadelphia
- Intention was to revise *Articles of Confederation*
- Ended up replacing the *Articles* and creating a new government
- Called the “Constitutional Convention.”

What were the important outcomes of the Constitutional Convention

- Virginia Plan:

- Separation of powers
- Bicameral legislature based on population
- Federal government had increased powers

- New Jersey Plan:

- Unicameral legislature where every state received equal representation.

- Great Compromise:

- Hybrid of VA and NJ Plans:
 - Bicameral legislature:
 - House of Reps based on population
 - Senate based upon equal representation
- Three-Fifth's Clause:
 - Slaves count as 3/5's of a person for representation purposes.

Ratification Debate

- Needed 9 of 13 states to ratify or official approve of the Constitution before it went into effect.
- A huge debate emerged between two sides:
 - Federalists
 - Anti-Federalists

Federalists v. Anti-Federalists

- Federalists:
 - Supported the Constitution and a strong central government
 - Alexander Hamilton, James Madison, John Jay
 - *Federalist Papers* – series of articles written in defense of the Constitution
- Anti-Federalists:
 - Supported a weaker central government – felt too much power was taken away from the states
 - Opposed the Constitution
 - Wanted a Bill of Rights included
 - Samuel Adams, Patrick Henry
